

HHV Landscape Committee Meeting **July 14, 2016**

Karen, Bet, Betsy, Pam, & Akiko present. Yvette excused.

Plants Report

Star jasmine trimmed along driveway at 20 SVD, per request.

Request received from 15 SVD to trim vine over front door. It is climbing in the tree & through the deck.

Recently new vines were planted at some residences to grow over the front door pergola. A few appear to be failing. Plants ladies will talk with Serpico next week during walk to check on them.

Plants ladies will look at some plants/loropetalums on the hillside to see if they can be moved before they die.

An email will be sent to Trina @ Serpico to request info regarding replacements for plants that die.

Trees Report

One request for tree trimming/removal has been received from 557 Hiller. The neighbors will be contacted for their input. The request will be reviewed in the Fall.

Mystery Cherry tree. Serpico advised that they had a Flowering Cherry tree for HHV. It was decided to not to plant it at 43 SVD because two previous at that location have died. Serpico then determined that the tree was a Catalina Cherry. It will be installed with water at 82 SVD.

A Smoke Tree is going to be installed with water at 6660 Charring Cross. The Board is handling the situation at 409 Hiller Dr.

Discussion followed about the info on the HHV website regarding landscape. It was decided to leave the website as it is.

The budget numbers are on track to date, awaiting the June Serpico bill. Water bills are now being managed by the Board.

Next meeting Aug 9th
